UNCLE SAM USES THEM

The food-testing laboratories of the U. S. Agricultural Department and the Commissary Departments; U. S. Hospitals, the Senate and House Restaurants, and many of the Battleships of the U. S. are equipped with

McCray Refrigerators

Actual tests have proved the superiority of McCray Refrigerators. This sanitary, dry-air, ice-saving refrigerator is just as practical FOR YOUR OWN HOME. Built for ice economy, and to keep food fresh as well as cold.

McCray Refrigerators cost a little more because they are made better, but they pay for themselves in the ice they save—in the satisfaction of having food free from bad odors, and in the lasting quality of their careful construction.

MONUMENTS AND MEMORIAL TABLETS

Granite -Marble Slate

Our designs are the result of years of experience Our designs are the result of years of experience in Memorial Art. There are three important points that should be considered by those wishing to select a suitable Memorial—the merit of the design, the material most suited and its treatment, and last and most important, the placing of the work in hands competent to produce the desired results.

No detail is too small for our painstaking care. We give close attention to cutting letters upon monuments already in place, and furnish duplicates of markers.
